

Lake Washington Ship Canal Rowing Traffic Pattern

Basic Rules

1. Keep to the right side of the waterway.
2. Keep careful lookout for other boats, especially in caution and danger areas.
3. Proceed single file in tight "Danger" areas.
4. Do not turn around within 50 meters of blind turns or congested areas.
5. Do not cut corners.
6. Cross traffic lanes at a right angle and watch out for approaching traffic.
7. No high speed pieces around corners or through bridges. Be prepared to stop in all "danger" and "caution" areas.
8. Overtaking boat has responsibility to keep clear and pass in a safe manner.
9. Individual rowers should stay clear of teams that are practicing together.
10. Power boats are bigger than you and probably do not see you.
11. Watch out for swimmers in the water.
12. Safety and courtesy are the responsibility of every rower and coach.

Lighting: All boats including singles and coaching launches must be lit in the dark, dusk, or in fog with red and green or solid white light. Flashing white strobe lights are distress only (Seattle Police)
